

Food Pouch Pencil Case

Upcycle your pouches into your own personal pencil case!

Skill Level:

Time:

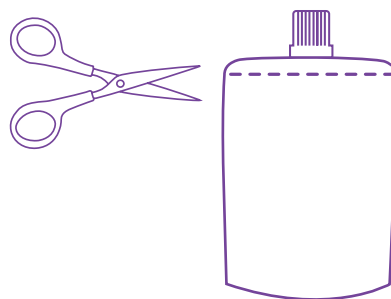

Materials

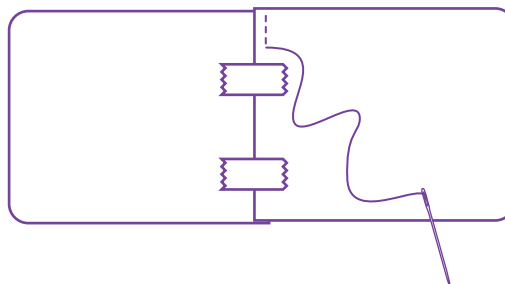

4 food pouches
scissors
zipper
sewing machine or needle and thread
tape

Instructions

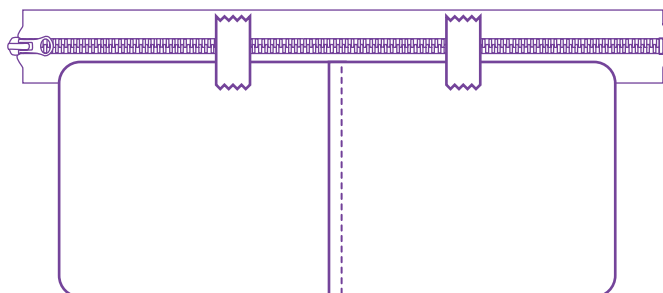

1 Trim off the top spout and clean the inside of your pouches with soap and water. Then trim all of the pouches to the exact same size.

2 Lay out two of the pouches horizontally and overlap the open ends. Tape in place. Sew along this line removing the tape as you go. Repeat for both pairs of pouches.

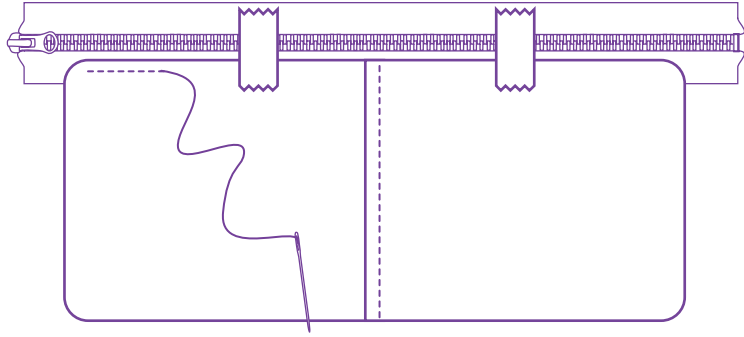

3 Tape the zipper to the long straight edge.

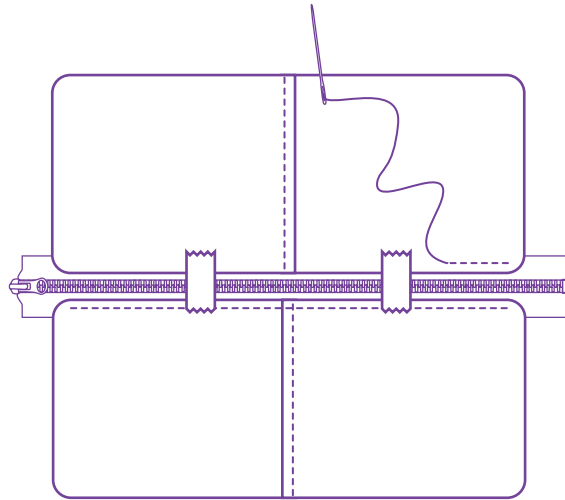

4

Stitch in place, leaving .25" from the edge.

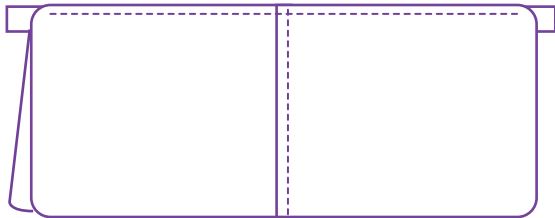

5

Repeat for the other side, making certain that the 2 pieces are perfectly lined up on either side of the zipper.

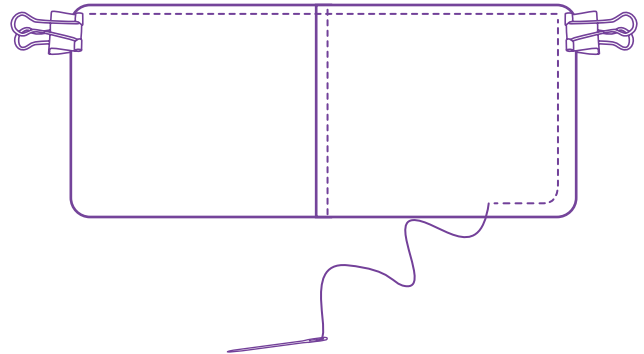

6

Fold the 2 pieces together with right sides out, tucking in the zipper ends.

7

Secure pieces together with tape or binder clips. Stitch around the outside edge of your new pencil case.

If you have completed this project and still have more drink pouches to upcycle, be sure to sign up for the TerraCycle Brigades at www.terracycle.com and send them in. These items will be transformed into new products, and better yet, your collection will earn money for your favorite charity!
