

Zero Waste Box™ Accepted Waste Guidelines

The purpose of this document is to provide TerraCycle customers a detailed overview of the accepted waste for each TerraCycle Zero Waste Box™ available for sale on our website. The guidelines include the following information for each product:

- **Zero Waste Box™ Name:** name of product, listed alphabetically. Note the name of the box may vary depending on region.
- **Waste Stream Practical Description:** outlines the types of material and products accepted for the associated Zero Waste Box™.
- **Waste Stream Technical Description:** provides a more detailed summary of material composition and specific polymers recycled for the associated Zero Waste Box™.
- **Restrictions:** outlines any specific material not accepted for a given Zero Waste Box™.

REGARDING HAZARDOUS MATERIAL: It is the responsibility of the customer as the waste generator to ensure that the waste sent to TerraCycle complies with the accepted guidelines and applicable, local regulation. TerraCycle does not accept any regulated or hazardous waste for recycling, unless otherwise specified.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
#6 Rigid Plastic Cups - Zero Waste Box™	Empty and Used #6 plastic cups, Polystyrene disposable cups.	Empty and Used Disposable drink cups made of thermoplastic polystyrene (PS).	Does not accept other types of beverage containers, such as, drink pouches, drink boxes, yogurt cups, or any other food packaging, such as, plastic bags or plastic containers. Does not accept heavily soiled, contaminated, or biodegradable materials.
3D Printing Materials - Zero Waste Box™	Used Thermoplastic 3D printing spools or printing scrap	Used Thermoplastic 3D printing materials made of acrylonitrile butadiene styrene (ABS), polystyrene (PS, HIPS), polyolefins (PP, PE), polyamides (nylon), polyurethanes, and polyacrylates	Does not accept compostable plastics (e.g., PLA, PHA, PHV, PHB, etc.), 3D printer parts, 3D printers, electronics, printer cartridges, bamboo, wood, or paper materials.
All-in-One - Zero Waste Box™	Any Brand of used and empty items, including, Fabrics, Pet Products (Non Food), Shipping Materials, Home Cleaning Accessories, Coffee Bags, Water Filters, Party Supplies & Dining Disposables, Kitchen Chair, Coffee Capsules, Books & Magazines, Office Supplies & E Waste, Art Supplies, Clothing & Accessories, Plastic & Paper Packaging.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty items made of cellulose fiber (e.g., paper, soda lime glass, and textiles consisting of synthetic and natural fibers, and metals. String lights with LED diodes only.	Does not accept universally regulated light bulbs (fluorescent, incandescent or mercury light bulbs), rechargeable batteries, hazardous material, regulated waste (e.g., pressurized canisters, lithium-ion batteries, light bulbs, oil-based paint, solvents and pesticides), organics, broken glass, soiled diaper, biodegradable materials. Textiles may not contain filling (pillows, coats, blankets), liners, shoes, purses, bags, hats, accessories (eg. belts, jewelry, etc.). Coated fibers, leather, fur are not accepted.
Art Supplies - Zero Waste Box™ Arts and Crafts Waste - Zero Waste Box™ Creative Leisure Waste - Zero Waste Box™	Any Brand of used and empty art supplies including, synthetic brushes, empty flexible plastic paint tubes, plastic bottles, plastic watercolor palettes, easels, markers, pens, or tape dispensers.	Brushes made of polyamides (Nylon), polyolefins (PP, PE), polystyrene (PS). Empty flexible tubes made of PE, PP, and Aluminum. Palettes made of PP, PS. Plastic easels made of PP, PE, PS, acrylonitrile butadiene styrene (ABS). Pens and markers made of PP, Cellulose Acetate, metal, Nylon. Tape dispensers made of PS, PP, PE.	Does not accept office supplies, such as, hole punchers, staplers, paper cutters. Does not accept wood, crayons, charcoals, natural sponges, paint, solvents, flammable substances, or sharp objects.
Baby Food Pouches - Zero Waste Box™ Food Bottles - Zero Waste Box™ Single Serve Beverage Packs - Zero Waste Box	Any brand of empty flexible plastic baby food pouches.	Pouches made of multi-layer thermoplastic polymers classified in the group of: polyolefins, polyesters, polyvinyl, and polyamides; may include thin Aluminum layer.	Does not accept heavily soiled, contaminated, or biodegradable materials.
Baby Gear - Zero Waste Box™ Baby Equipment - Zero Waste Box™	Any brand of empty, non-electronic baby care items, including, small or collapsable baby gear (e.g., play tables, play chairs, changing tables, diaper pails, security gates, booster seats, training potties, baby stools, baby steps, toy organizers, bouncers, jumpers, mobiles and swings), feeding bottles, pacifiers & teething, play mats, bottles, bottle caps and collars, sippy cups, plastic dishware and utensils, non-electric breast pumps, pacifiers, small plastic toys, teething rings and plastic bibs.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of fabrics (without polyfill), soda lime glass, synthetic rubber, foamed polymers, and metals.	Does not accept other types of baby-related waste, such as diapers, light bulbs, electronics, batteries, hazardous material, organics, broken glass, heavily soiled batteries, or compostable plastics. Does not accept bits, towels, furs, cloth diapers, or textiles that contain filling (pillows, coats, blankets).
Bathroom Separation - Zero Waste Box™	Any non-electric bathroom items, including, Cleaning Accessories, Bath And Shower Accessories, Flexible And Rigid Plastic Packaging, Storage Containers, Personal Care Accessories, Paper Packaging, non-prescription Blister & Bottle Packaging, Fabrics & Clothing"	Used and empty bathroom items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of metals, cellulose or kraft fibers, soda lime glass, and textiles consisting of synthetic and natural fibers.	Does not accept leather, luggage, prescription drug packaging, biomedical waste or sharps, aerosols, perfumes, nail polish, acetone, paints, solvents, paper towels, any organic waste, electronics, batteries, lithium-ion batteries, light bulbs, wood, bamboo, biodegradable plastic, and heavily soiled, contaminated or hazardous materials. *Textiles may not contain filling (e.g., pillows, coats, blankets).
Beauty Products and Packaging - Zero Waste Box™ Cosmetics Packaging - Zero Waste Box™ Hair and Body Care Accessories - Zero Waste Box™ Bubble Skincare Packaging Recycling Solution Mad Hippie Packaging Recycling Solution Nativa SPA Packaging Recycling Solution Timeless Skin Care Recycling Solution	Any brand empty personal care, beauty care, skin care, hair care, or cosmetic packaging, flexible plastic, multilayered flexible packets, pouches, sachets, flexible plastic tubes, multilayered tubes, aluminumized tubes, rigid plastic, pots, pump bottles, spray bottles, jars, complex closures, plastic bottles, lip balm tubes, soap dispensers, body wash bottles, lotion dispensers, caps, shampoo and conditioner bottles, hair gel tubes, triggers, mixed rigid packaging, lipstick cases, lip gloss tubes, mascara tubes, eye shadow cases, bronzer cases, foundation packaging, powder cases, eyeshadow tubes, concealer tubes, concealer sticks, glass containers, metal containers.	Used and empty beauty products and packaging items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of soda lime glass or metals.	Does not accept aerosols, pressurized cans, electronics (e.g., blow dryers, straighteners, etc.), perfume bottles, nail polish bottles, solvents, wooden eyeliner pencils, partially full / full packaging (e.g., tubes, jars and containers filled with nail-polish, lotion, soap or ointments), cardboard, wood, bamboo, biodegradable, heavily soiled, contaminated, or hazardous materials.
Bedroom Separation - Zero Waste Box™	Any non-electric bedroom items including, Luggage & Travel Bags, Eyewear & Jewelry, small Baby Gear items, Plastic Packaging, Cleaning Accessories, Personal Care Accessories, Paper Packaging, Fabrics & Clothing", non-organic Pet Products, and Books & Magazines.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of metals, cardboard, paper, and natural or synthetic fibers.	Does not accept other bedroom waste, including, shoes, aerosols, perfumes, nail polish, chemicals, solvents, paper towels, any organic waste, electronics, batteries, lithium-ion batteries, light bulbs, wood, bamboo, biodegradable plastic, and heavily soiled, contaminated or hazardous materials. *Textiles may not contain filling (pillows, coats, blankets).
Biodegradable Plastic - Zero Waste Box™	Any brand biodegradable or compostable plastic products, including, PLA cups, knives, forks, spoons, bowls, and plates.	Disposable products made of compostable PLA, starch-based, bacteria-based, and soy-based compostable resins.	Does not accept organic substances (e.g., food waste, plants, soil, mulch, etc.), non-biodegradable plastic, paper or wood compostables.
Break Room Separation - Zero Waste Box™	Any non-electric break room waste items, including coffee and tea accessories (non-paper filters, tea strainers), non-biodegradable plastic dining disposables (plastic cutlery, plastic and foam cups), flexible and rigid plastic packaging (containers and bags), non-coated paper packaging, single serve coffee pods/capsules.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, elastomers, polyesters. Also used and empty items made of Aluminum, including multilayered films.	Does not accept cellulose based products and coated paper (napkins, paper towels, paper plates, tissues, coated paper packaging), electronics (unwanted coffee makers, appliances), hardware, wood, bamboo, biodegradable plastic, heavily soiled, contaminated or hazardous materials.
Candy and Snack Wrappers - Zero Waste Box™ Crisp Packets, Snack Packaging and Sweet Wrappers- ZWB Fullgreen Packaging recycling program Candy, Biscuit and Snack Packaging - Zero Waste™ Box Pamela's and Ancient Harvest Recycling Solutions	Any brand empty, mixed flexible plastic candy and snack packaging or wrappers, blister packaging.	Empty packaging made of flexible multilayered thermoplastic polyolefins (PP, PE), polyester (PET, PES), polyamides (PA, nylon); heavy gauge Aluminum metal. Multilayered flexible packaging that contains <40% Aluminum layer.	Does not accept paper-based wrappers, wood sticks, blister packs, food waste, or cardboard master cartons (which are typically recyclable at curbside). Does not accept heavily soiled, contaminated, or biodegradable materials.
Centrifuge Tubes & Rigid Lab Plastics - Zero Waste Box™	Any brand of empty and non-hazardous rigid lab plastics, including centrifuge tubes, plastic bottles, trays, vials, and beakers.	Empty and non-hazardous items made of thermoplastic polymers classified in the group of: polyolefins, polyesters, and polyvinyl.	Does not accept any bio-hazardous waste plastics such as, medical waste heavily soiled or contaminated (hazardous) material; including, materials contaminated with blood or bodily fluids, materials that originate from health care activity, such as activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc., or partially full containers, tubes, bottles, sharps, broken beakers, broken vials.
Cleaning Supplies and Accessories - Zero Waste Box™	Empty non-hazardous cleaning items and packaging, including: plastic brooms, mops, buckets, synthetic dry cleaning pads, synthetic wet cleaning pads, dust pans, empty spray bottles, empty detergent bottles and nozzles, empty cleaning product bottles, lid tops, and dryer sheets.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polyacrylics, polyamides, polyesters. Also used and empty items comprised with metals.	Does not accept aerosol cans, solvents, other household materials, such as, drain cleaners, oven cleaners, toilet cleaners, disinfectant, degreasers, all-purpose cleaners, detergents, bleach, fabric softeners, wood, bamboo, or any biodegradable, heavily soiled, contaminated, or hazardous materials.
Coffee Bags - Zero Waste™ Box Soft Coffee Packaging - Zero Waste™ Box Coffee Capsules - Zero Waste Box™ Hot Beverage Capsules - Zero Waste Box™ Hot Drink Capsules - Zero Waste Box™ Beverage Capsules - Zero Waste Box™	Any brand and size of empty coffee bags.	Flexible plastic packaging made of polyolefins, polyesters, nylon, and aluminum foil.	Does not accept any other types of coffee packaging or waste (e.g., coffee grounds, filters, capsules, or discs), biodegradable, heavily soiled, contaminated, or hazardous materials.
Contact Lenses and Packaging - Zero Waste Box™	Any brand of contact lenses, contact lens packaging, plastic film, pods, and cardboard packaging.	Beverage Capsules made of rigid thermoplastics polyolefins, and metal; flexible thermoplastics polyolefins, multilayers and coffee ground.	Does not accept any other types of beverage waste, loose coffee, coffee grinds, tea bags, electronics, coffee accessories, biodegradable, heavily soiled, contaminated, or hazardous materials.
Diaper and Wipe Packaging - Zero Waste Box™ Synthetic Disinfectant Wipes - Zero Waste Box™	Any brand and size of empty diaper packaging and wipes packaging, including plastic diaper packaging, wipes plastic packaging, and individual wipes packaging.	Contact lens packaging made of thermoplastic polyolefins, aluminum foil, polyesters, contact lenses made of silicone.	Does not accept contact lens solution bottles, biodegradable, contaminated, or hazardous materials.
Dining Disposables and Party Supplies - Zero Waste Box™	Any party and decoration item or packaging, including: single-use cups, plates, straws, or utensils (e.g., plastic, Styrofoam), storage containers, wrapping paper, ribbons, bows, tissue paper, napkins, garlands, noise makers, party favors, punch bowls, balloons, and confetti packaging.	Empty thermoplastic packaging made of polyolefins, polyvinyl, polyesters, polyamides, and aluminum foil.	Does not accept diapers, wipes, menstrual product packaging, adult incontinence packaging, biodegradable, contaminated, or hazardous materials.
Disposable Garments - Zero Waste Box™	Any brand and size of empty diaper packaging and wipes packaging, including plastic diaper packaging, wipes plastic packaging, and individual wipes packaging.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyesters, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers. Also used and empty items made of metal or paper.	Does not accept electronics, organic waste, glassware, flatware, wood, bamboo, biodegradable, heavily soiled, contaminated, or hazardous materials.
	Any brand and size of non-woven disposable garments, including: Non-woven disposable garments, non-woven disposable masks, Tyvek disposable garments.	Non-Woven garments made of polypropylene (PP), polyethylene (PE), Zippers or fasteners made of Nylon, PP, PE, and metal.	Does not accept other types of protective gear (e.g., reusable masks, eyewear, hard hats, respirators, etc.), fabrics, rubber-based garments, biodegradable plastics, medical waste, heavily soiled or contaminated (hazardous) material including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
Disposable Gloves - Zero Waste Box™	Any brand disposable vinyl, nitrile, and latex gloves only.	Disposable gloves made of non-woven thermoplastic polyolefins (PP, PE), nitrile, latex, vinyl.	Does not accept leather, fiberglass fibers, biodegradable fibers, other types of protective gear, such as, hair nets, earplugs, and lab coats or garments. Does not accept biodegradable PLA gloves, cloth/fabric gloves, and coated or dipped gloves. Does not accept medical waste, heavily soiled or contaminated (hazardous) material including, materials contaminated with blood or bodily fluids, materials that originate from health care activities such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.
Disposable Masks - Zero Waste Box™ Disposable Protective Masks - Zero Waste Box™ Masks - Zero Waste Box™	Any brand non-woven disposable plastic-based masks, including 3-ply surgical, dust masks, KN95, N95 masks, and poly masks.	Disposable masks made of non-woven polypropylene (PP, PE), thermoplastic polyurethane (TPU), nitrile rubber, latex rubber, and metals.	Does not accept other types of protective gear, such as, gloves, hair nets, lab coats, garments, paper or cloth masks. Does not accept medical waste, heavily soiled or contaminated (hazardous) material; including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians, dental, blood banks, veterinary, research laboratories, etc.
Drink Pouches - Zero Waste Box™ Fuel For Fire Packaging Gush Recycling Program Haven's Kitchen Packaging Recycling Solution White Leaf Packaging Recycling Solutions	Any brand aluminized, multilayer drink pouches.	Pouches made of multi-layer thermoplastic polyolefins (PE, PP), polyesters (PET), Aluminum foil, copolymers (EVA, EVOH), or Nylon.	Does not accept heavily soiled, contaminated, or biodegradable materials.
Ear Plugs - Zero Waste Box™	Any brand and size ear plugs.	Ear plugs made of foamed thermoplastic polyurethanes, synthetic rubber, polyvinyl, and silicone.	Does not accept hair nets, gloves, lab coats, garments, heavily soiled, or contaminated materials.
Eyewear - Zero Waste Box™ Glasses - Zero Waste Box™	Any brand and size of glasses, goggles, sunglasses, or other eye wear. This includes broken spectacles, sunglasses, glasses, ski goggles, safety glasses and swim goggles.	Used eyewear made of thermoplastic polymers classified in the group of: cellulosic acetate, polyolefins, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, polyacetals and metals.	Do not send in eyeglass chains, cases, wipes, contacts, contact solution, or eye wear cleaning products.
Fabrics and Clothing - Zero Waste Box™ Textiles & clothing - Zero Waste Box™	All brands fabric, clothing or textile.	Clothing Textiles, and Fabrics made from synthetic and natural fibers that may have zippers, buttons and magnets.	Does not accept liners, shoes, purses, bags, hats, accessories (e.g., belts, jewelry, etc.), coated fibers, leather, fur and textiles may not contain filling (e.g., pillows, coats, blankets).
Filters - Zero Waste Box™ Brita® Free Recycling Program Hydros Filters Recycling Solution	Any brand and size of water filters.	Water filters made of PP, ABS, Silicone, PC, PS, Activated Carbon, Ion Exchange resins.	Do not send in the device that uses the filter or any air filters.
Garage Separation - Zero Waste Box™	Non-recyclable and non-organic waste that is generated in your garage and outdoor areas. This includes baby gear, filters, garden products, home improvement, storage containers, paper packaging, pet products (non-food), plastic packaging, shipping materials, and sporting goods.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of paper, soda lime glass.	Do not send wood, compostable plastic, contaminated material, hazardous material, batteries, tools, lamps, bulb, electronic waste.
Hair Nets and Beard Nets - Zero Waste Box™	Any brand and size of used hair and beard nets.	Hair nets and beard net made of Polypropylene, Polyethylene, Synthetic Rubber.	Do not send in gloves, lab coats, or garments. Do not send contaminated or hazardous material.
Holiday Decorations - Zero Waste Box™	Holiday decorations including ornaments, wrapping paper, string lights, streamers, confetti, tinsel, garlands, ribbons, bows, balloons, banners, centerpieces, party hats, party blowers, plastic party glasses, costume masks, plastic pumpkins/figurines/flowers, and other decorations used for celebrations.	Used Holiday decorations, party items, and decorations for celebrations made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used item made of metal or soda lime glass. String lights with LED diodes only.	Please do not send in batteries, universally regulated light bulbs (fluorescent, incandescent or mercury light bulbs), organics, or broken glass.
Incandescent Light Bulbs - Zero Waste Box™	Traditional, incandescent, and halogen used light bulbs. A simple test to ensure your light bulb qualifies for this Box is to shake it. If you hear the rattling of metal filament inside, the bulb is acceptable.	Light bulbs made of glass, metals, tungsten filament.	Do not send in other types of light bulbs, which includes HID, CFL, Fluorescent, LED, or any other non-incandescent bulb.
Ink and Toner Cartridges - Zero Waste Box™	Any brand and size of used ink and toner cartridge from personal or commercial printers.	Used and empty Ink and toner cartridges made of thermoplastic PS, ABS, PC, Nylon, POM, Metals, PP, PE.	Do not send in printers, printer parts, or printer accessories. Do not send hazardous materials.
Kitchen Separation Kitchen Waste - Zero Waste Box™	Any non-recyclable and non-organic waste that is generated in the kitchen. This includes items such as plastic packaging, paper packaging, candy and snack wrappers, party supplies and dining disposables, cleaning accessories, coffee and tea accessories, water filters, and fabrics and clothing.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of paper, soda lime glass, synthetic or natural textile fibers.	Do not send in any kind of bulbs, batteries, electronic waste, hazardous material, prescription drug packaging or medicine, organics, broken glass, soiled diaper. Do not send in wood, compostable plastics. Textiles may not contain filling (pillows, coats, blankets), liners, shoes, purses, bags, hats, accessories (eg. belts, jewelry, etc). Coated fibers, leather, fur are not accepted.
Laminated Paper Packaging - Zero Waste Box™	Any cellulose coated paper packaging, plastic coated paper packaging, Silicone Coated Paper Packaging, Wax Coated Paper Packaging, and Tetrapaks.	Packaging made of mostly paper and cardboard content with thin layer coatings made of polyolefin (PP, PE), silicone, wax or foil.	Does not accept label backing, packaging with coatings >50% of its cellulose content, organic, biodegradable, heavily contaminated, or hazardous materials.
Name Tags and Lanyards - Zero Waste Box™ Name Tags & Cords - Zero Waste Box™	Name tags, plastic sleeves, metal or plastic fasteners, cloth or plastic lanyards.	Used Tags made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, elastomers, polyesters, metals.	Do not send in any credit cards, items with personal information unless it has been shredded or removed.
Office Supplies	Used office supplies consisting of tape dispensers, staplers, paperclips, writing instruments, fasteners, binder clips, correction supplies, paper cutters, card filers, binders, desk organizers, label backing.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of metal.	Do not send electronic waste, paper-based products, organics, contaminated or hazardous waste.
Oral Care and Packaging Oral Care Waste and Packaging - Zero Waste Box™	Any brand of used and empty oral care waste. This includes toothpaste tubes and caps, toothbrushes, toothbrush and toothpaste tube outer packaging, and floss containers.	Oral care empty products and packaging made of thermoplastic polymers classified in the group of: polyolefins, polystyrene plastics, elastomers, polyamides, terephthalate polyesters, polyacrylics and polymethacrylates, polyacetals (POM) and metal; flexible thermoplastics polyolefins, polyesters, multilayers, metal.	Do not send in electronic toothbrushes, lithium-ion batteries, alkaline batteries, wood, biodegradable, or hazardous materials.
Pens, Pencils and Markers - Zero Waste Box™	Any brand of used pens, pen caps, mechanical pencils, highlighters, markers, marker caps, permanent markers, and permanent marker caps.	Used and empty writing instruments made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyamides, polycarbonates, elastomers, polyesters, polyacetal, metals.	Do not send in any type of paint brush, paint, paint tubes, crayons, charcoal pencils. Wood not accepted.
Personal Care Accessories - Zero Waste Box™	Any used and empty personal care accessory, including blow-dryer attachments (combs and diffusers), detangler bottles, gel packaging, hair dye packaging, non-pressurized hair spray bottles, pomade tins, shampoo and conditioner bottles, wax jars, plastic and metal bobby pins, plastic and metal clips, plastic brushes and combs, plastic picks.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyamides, polycarbonates, elastomers, polyesters, metals.	Do not send in electronic items (e.g., blow dryers and straighteners), bio-medical or bio-hazardous waste, nail polish bottles, perfume bottles, lotion, soap, ointments aerosols, biodegradable, heavily contaminated, or hazardous materials.
Pet Food Packaging - Zero Waste Box™ A Pup Above Packaging Recycling Solution Nulo Challenger Recycling Solution	Any brand and size of used, empty flexible pouch, bag, used for packaging pet food, treats, and vitamins.	Used and empty flexible packaging made of thermoplastic polymers classified in the group of: polyolefins, polyamides, polycarbonates, polyesters, metals.	Do not send in pet toys, dishes, or grooming items.
Plastic Cards - Zero Waste Box™	Any wallet-sized flexible plastic materials and cards typically intended for identification or facilitating commercial transactions. Note: Please cut up all cards containing sensitive information before sending.	Shredded cards made of PVC, PP, Magnetic materials, PET, metal chip.	Do not send in metal cards or wallets.
Plastic Grocery and Shopping Bags - Zero Waste Box™ Plastic Bags-ZWB	Empty plastic grocery shopping and non-woven bags.	Flexible empty plastic bags made of thermoplastic polyolefin.	Do not send in contaminated plastic bags (i.e. containing food waste, other type of non accepted waste), textile bags, Canvas Totes, Reusable Totes.
Plastic Packaging - Zero Waste Box™	Any flexible or rigid plastic packaging. This includes items such as: Air packaging Bubble wrap, Cereal bag liners, Food storage and takeout containers, Pallet covers, Plastic bottles, Plastic shopping bags, Plastic wrap, Shrink wrap.	Used and empty plastic flexible packaging made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyamides, polyesters.	Do not send in biodegradable plastics, PLA plastics, plastic with paper stickers, glass, Wood packaging, Foamed Plastics and please remove food crumbs, food waste, and plastics with heavy contamination prior to sending.
Power Strips and Cords - Zero Waste Box™	Electronic cords, wires, and cables as well as chargers and power strips. This includes computer cords, extension cords, TV cords, telephone cords, HDMI cables, ethernet cords, cable wires, USB cables.	Used items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, polyacetal. Item made of metals are also accepted.	Do not send in batteries, electronic devices, lithium-ion batteries.
Safety Equipment and Protective Gear - Zero Waste Box™ Protective Equipment - Zero Waste Box™ Personal Protective Equipment - Zero Waste Box™ Disposable PPE - Zero Waste Box™	All brands and sizes of disposable safety equipment and protective gear. This includes items such as beard nets, disposable (latex, nitrile, and vinyl) gloves, ear plugs, disposable garments, disposable masks, hair nets, safety glasses and goggles.	Used disposable protective equipment made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal.	Do not send in medical waste. This includes material contaminated with blood or bodily fluids that originate from health care facilities, hospitals, physicians' offices, dental offices, blood banks, veterinary clinics, research laboratories, etc. Do not send in metallic items.
Shipping Materials - Zero Waste Box™	Any empty plastic shipping material used for packing and transport materials including: Bubble Wrap, Deflated Air Cushions, Plastic Tape Dispensers, Siliconized Paper Label Backing, Packing Foam, Siliconized Pet Label Backing, Stretch Wrap.	Empty shipping materials made of thermoplastic polymers classified in the group of: polyolefins, polyamides (Nylon), polyesters. Tape dispensers made of thermoplastic polyolefins, polystyrene and metal. Label backing made of paper with silicone laminate.	Does not accept Cardboard, Shipping Peanuts, Paper Based Padded Bubble Mailers, heavily contaminated, biodegradable, or hazardous materials.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
Shoes and Footwear - Zero Waste Box™	Synthetic shoes and footwear, synthetic uppers and lowers, synthetic sandals, synthetic shoes, synthetic boots.	Used shoes and footwear, athletic shoes, sneakers, sandals, or boots made of thermoplastic polymers classified in the group of: polyesters, polyamides (Nylon), polyurethane, silicone, ethylene-vinyl acetate (EVA), elastane; synthetic rubber, Velcro, metal.	Does not accept skates, ski boots, shoelaces, socks, leather, wood, bamboo, biodegradable, heavily soiled, and hazardous materials.
Sporting Goods - Zero Waste Box™	Any brand *clothing, or equipment used in a sport, including bats, sticks, rackets (including broken parts such as strings, bumpers, and grippers), discarded biking and skateboarding equipment such as skateboards, bicycles, wheels, brakes, protective seats, bells, baskets, accessories, rims, reflectors, and handlebar cushions and grips, fishing rods, nets, hooks, weights, scales, popped and ripped frisbees, pucks, any type of ball (e.g., basketballs, water-sport, softballs, baseballs, footballs, tennis balls, soccer balls, volleyballs, golf balls), yoga mats, blocks, bags, Velcro straps, eye-cushions, sports accessories and safety equipment, such as helmets, protective pads, resistance accessories, free weights, straps, cones, mouth-guards, whistles, jump ropes, netting, pennies, and *clothing specific to certain recreational activities like swimsuits.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of synthetic or natural textile fibers.	Does not accept any kind of bulbs, batteries, electronic waste, hazardous material, organics, broken glass, soiled diaper, wood, compostable plastics, or heavily contaminated materials. *Textiles may not contain filling (pillows, coats, blankets), liners, shoes, purses, bags, hats, accessories (eg., belts, jewelry, etc.), coated fibers, leather, or fur.
Straws - Zero Waste Box™	Any used plastic straws.	Plastic straws made of PP.	Does not accept any liquid or food contents, paper straws, reusable straws (biodegradable plastic, metal), permanent glassware, permanent flatware, biodegradable, heavily contaminated, or hazardous materials, pressurised canisters, broken glass, or medical waste.
Styrofoam - Zero Waste Box™	Any Styrofoam	Foamed Plastics consisting of PolyStyrene.	Do not send any heavily soil Styrofoam, organic waste, any other type of plastic packaging, film, utensils, napkins, bags.
Toys - Zero Waste Box™	Any brand used toys including, non-rechargeable electronic toys, controllers, games, players, sound books, remote control vehicles, and electronic stuffed animals without batteries; toy pieces, cards, dice, game boards, packaging from board games, baby toys, building sets, stuffed animals, puzzle pieces, game pieces, action figures, and toys made of 100% wood.	Used Toy and game items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetals. Also items made of metals, paper, soda lime glass, fibers, textiles, and 100% wood.	Does not accept any batteries, rechargeable or lithium-ion batteries, biodegradable, hazardous, contaminated, or dangerous materials.
Used Chewing Gum - Zero Waste Box™	Used chewing gum.	Chewing gum made of Butadiene styrene rubber, PE, Isobutylene isoprene copolymer.	Do not send in any gum packaging.
Wrapping Paper and Accessories Gift Waste - Zero Waste Box™	Any type of wrapping paper, ribbon, bows, tissue paper or party supplies such as garlands, and confetti.	Used and empty Party items made of thermoplastic polymers classified in the group of: polyolefins, polyvinyl, polystyrenes, elastomers, polyamides, terephthalate polyesters, and metal; metal or paper made of cellulose fibers.	Does not accept organics, broken glass, batteries, electronics, biodegradable, heavily contaminated, or hazardous materials.
