

TERRACYCLE®

# DIY CARDBOARD DANDELION

# DIY CARDBOARD DANDELION

Your upcycling skills will 'bloom' with this project!

## MATERIALS

- Cardboard package

## TOOLS

- Scissors
- Ruler
- Hot Glue Gun
- Pencil

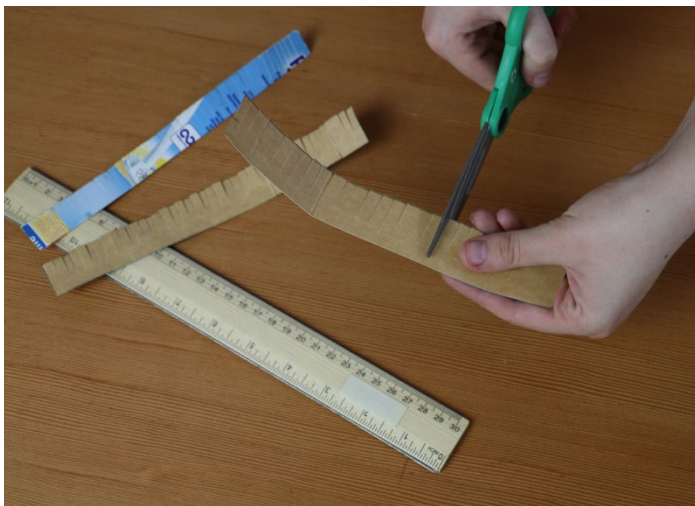

## Instructions:

**STEP 1** Open up package and flatten out.

### STEP 2

Measure and draw out three 20 cm strips that have widths of 2 cm, 2 ½ cm, and 3 cm. Cut strips from package.

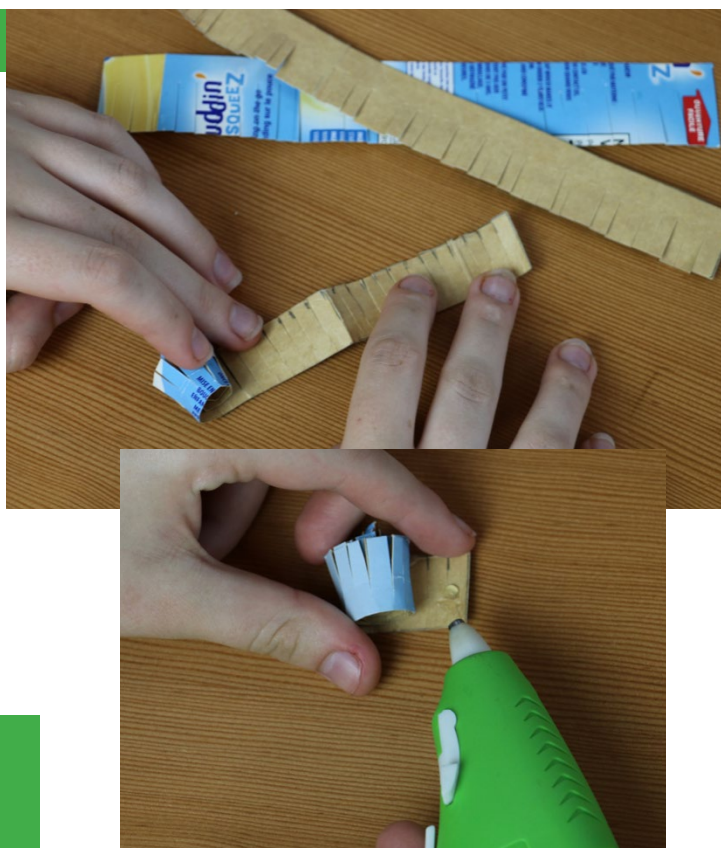

### STEP 3

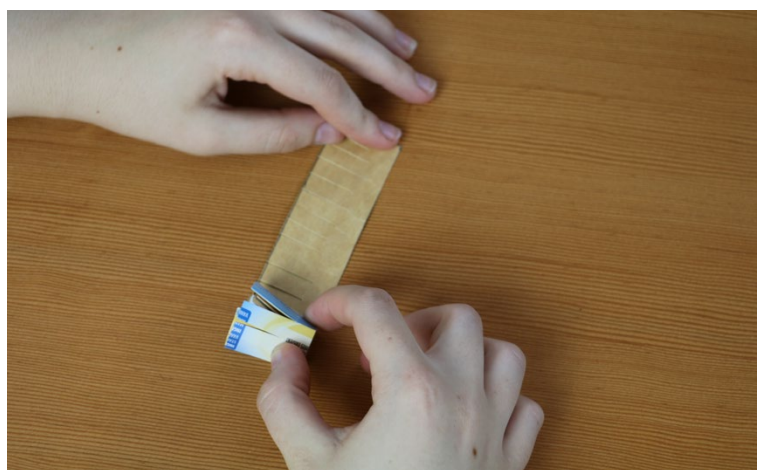

Fringe the strips by cutting ½ cm pieces about 1 ½ cm in along the long edge of each strip.

## STEP 4

Tightly roll the 2 cm strip and secure the end with hot glue.

**Design Tip :** Alternate which side you roll the package to create different patterns of colored and non-colored flower 'petals'.

## STEP 5

Continue adding the other two strips by gluing one end in place, wrapping around the flower, and securing the other end with hot glue.
