

How to bring TerraCycle to your community event

TerraCycle makes it simple to bring sustainability to your next event! Offer your guests recycling solutions for hard-to-recycle trash. Here's how you can get started:

Recycle for free

1. Create an account on terracycle.com/en-CA for your community group. Make sure to select the appropriate organization type for your group!
2. Think about the types of hard-to-recycle trash you commonly notice in your community—as litter and common household waste. Then, browse our free recycling programs and join those that accept the trash you want to recycle with your community.
3. Tell your guests about the recycling solutions you'll be offering before your event. Use social media, email, or your group chat to let them know what trash they can bring from home to recycle at your event.
4. Prepare collection bins or boxes for your event, clearly labeling them using the accepted waste posters on the program page. Set up these collection boxes for each program at your event in high-traffic areas where guests can easily access them.
5. After your event, package up the trash for each program in a shipping box and send it to TerraCycle—we'll recycle all the accepted waste!

Earn rewards from participating free recycling programs!

When you recycle in participating free recycling programs, you'll earn TerraCycle Recycling Rewards points that can be redeemed as cash for your group or organization!

Visit terracycle.com/en-CA/pages/community to learn more about recycling with our free recycling programs and get access to helpful resources for communities.

How to bring TerraCycle to your community event

#RecycleEverything with Zero Waste Box

Zero Waste Box makes it simple for you to recycle the trash from your event.

1. Think about the types of hard-to-recycle trash you commonly notice in your community and any kinds of trash your event will produce, like decorations or dining disposables.

2. Browse our range of Zero Waste Boxes and purchase those that align with the hard-to-recycle trash you want to recycle at your event.

3. Tell your guests about the recycling solutions you'll be offering in advance of your event. Use social media, email, or your group chat to let them know what kinds of trash they can bring from home to recycle at your event.

4. Set up your Zero Waste Boxes in a high-traffic area of your event.

5. When your boxes are full, ship them to TerraCycle, and we'll recycle your trash.

Not sure which boxes to start with? These Zero Waste Boxes are great for events:

Boxes for specific types of waste
