

CORPORATE FACT SHEET

Description:	TerraCycle is a world leader in the collection and repurposing of complex waste streams. Its brand-funded free programs operate in 20 countries and have contributed millions of dollars to schools and non-profits. TerraCycle offers Zero Waste Boxes for purchase to recycle hundreds of waste streams and runs cigarette recycling programs for major cities. Through a worldwide collection network, TerraCycle has created the largest global supply chain by volume for recycled beach plastic. TerraCycle's regulated waste division manages the collection and disposal of universal and hazardous waste. TerraCycle's newest initiative, Loop, is a circular reuse platform that partners with brands and retailers to move from a disposable to durable supply chain and enables consumers to purchase a wide range of everyday products in reusable packaging.
