TERRACYCLE REGULATED WASTE HAS MADE ‘GOING GREEN’ EASY WITH THE NEW BULKPAK RECYCLING PROGRAM

New BulkPak Program Allows Businesses to Meet Their 2021 Sustainability Targets by Conveniently Recycling High Volumes of Otherwise Unrecyclable Waste

TRENTON, NJ, February 3, 2021 – As companies move into 2021 and set new corporate goals for the year and beyond, the question on the lips of environmentally aware executives is, “How do you set sustainability goals that benefit the health and future of both the business and its customers without breaking the bank?”

To help establish, implement and meet these new sustainability targets – all within the corporate budget, TerraCycle Regulated Waste (TCRW), a commercial recycling solution provider that specializes in the collection and repurposing of complex regulated waste streams, has announced the new BulkPak Recycling Program. This new system allows companies the freedom of bulk freight recycling, with the convenience and affordability of the return-by-mail EasyPak service.

Designed as an all-in-one, mixed pallet solution for numerous regulated waste streams. Customers simply select the EasyPak boxes that best suit their needs, TCRW place all the required supplies on a pallet and direct ships it. Within seventy-two hours of ordering companies are able to provide fully compliant regulated waste recycling program that allows for simple set-up, collection and storage. When full simply contact TCRW for fast, convenient pick-up.

The following BulkPak Programs are now available:

- **Universal Waste Program BulkPak** – Designed for customers who want a fully compliant universal waste program. The pallet contains a starter kit with supplies along with prepaid freight shipping for a wide range of universal waste items including e-waste, fluorescent lights, batteries, common office and breakroom waste and more.
- **Lighting Retrofit Project BulkPak** – Designed with busy contractors or facility managers in mind, this package offers a convenient solution for recycling lighting waste generated during LED conversion projects.
- **Zero Waste Facility BulkPak** – Best suited for facilities with a goal of being “Waste Free” this package offers recycling solutions for typically unrecyclable items that can that cannot be processed by municipal recycling centers, such as PPE waste, coffee pods, cups, lids and stirrers, etc.
- **BulkPak for Safety** – Perfect for any business operating during the COVID-19 pandemic and looking for a recycling solution for PPE waste. Items collected include protective gloves, masks, and safety equipment.

“The new BulkPak Recycling program is a great opportunity for businesses to start 2021 on the right foot,” said Kevin Flynn, Global Vice President of TerraCycle Operations and Director of TerraCycle Regulated Waste. “Designed to meet and exceed the needs of busy managers and business owners, BulkPak gives them the power to implement a customized and streamlined recycling program so they can meet their sustainability goals without any of the high costs or headaches.”

TerraCycle Regulated Waste created the EasyPak and BulkPak programs to help businesses facilitate the effective and compliant management of regulated, universal and hazardous waste. All EasyPak boxes are UN-compliant and are sealed while in transit, limiting any possibility of contamination. Additionally, for added convenience, the EasyPak containers are available for purchase through a reorder subscription program ensuring that property managers are never left without a solution to their universal waste.
