

CAPRI SUN TINY TOTE

CAPRI SUN TINY TOTE

A tote-ally cool little tote!

MATERIALS

- Capri Sun box
- Ribbon
- Capri Sun drink pouch (optional)
- colored tape (optional)

TOOLS

- Scissors or craft knife
- Ruler
- Hole punch

START!

STEP 1 Drink all your juice pouches and make sure your box is empty!

STEP 2

Use a ruler to mark lines on all four sides of the box, 5 inches from the bottom.

STEP 3

Carefully use your scissors or craft knife to cut along the line you drew.

DESIGN TIP!

A craft knife will give you a much cleaner and smoother edge.

STEP 4

Optional, use colored tape to decorate your box!

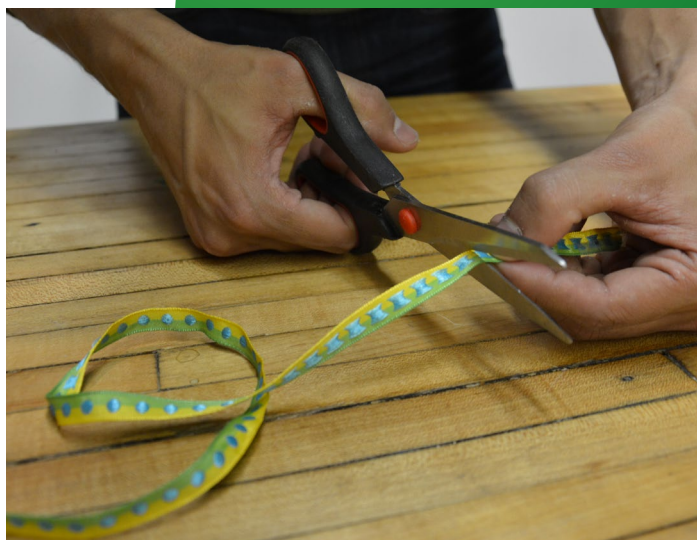

STEP 5

Near the top of the cut edge, use a hole punch to make two centered holes a quarter inch apart. Repeat on the opposite side of the box. You will end up with a total of four holes, two on each side.

STEP 6

Use scissors to cut a length of ribbon 30 inches long.

STEP 7

Loop the ribbon through the four holes, making sure the ends meet up together next to each other.

STEP 8

Tie the ends together in a double knot.

Optional Step: If you also do a Drink Pouch Wallet DIY, you can adhere it to the outside of the Capri Sun box for added storage!
